

Acceso desde aplicación de escritorio de Claude

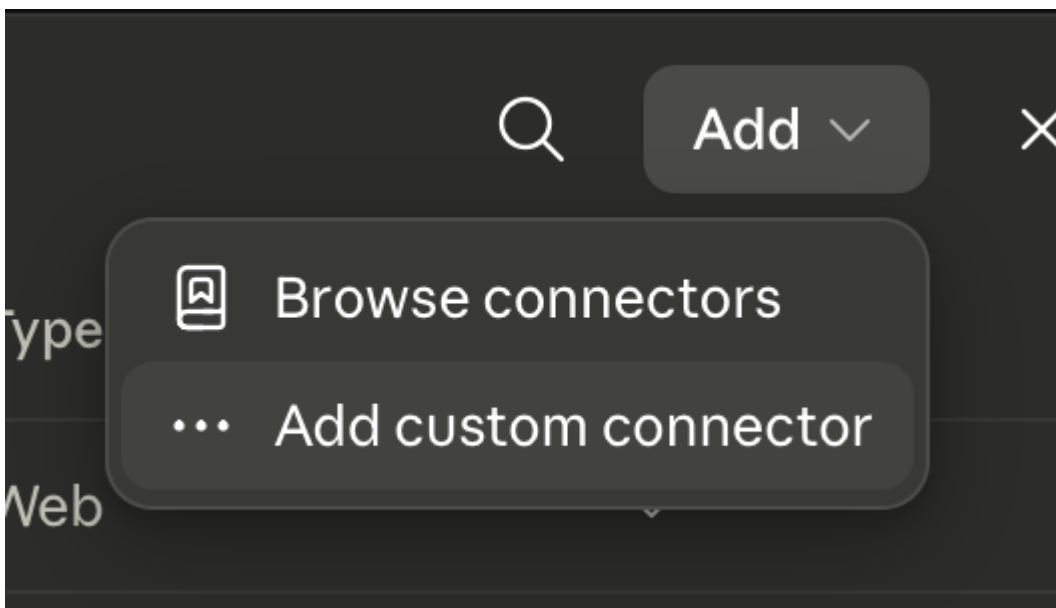

Paso 1. En la esquina inferior izquierda, haz click en tu usuario y luego click en configuración.

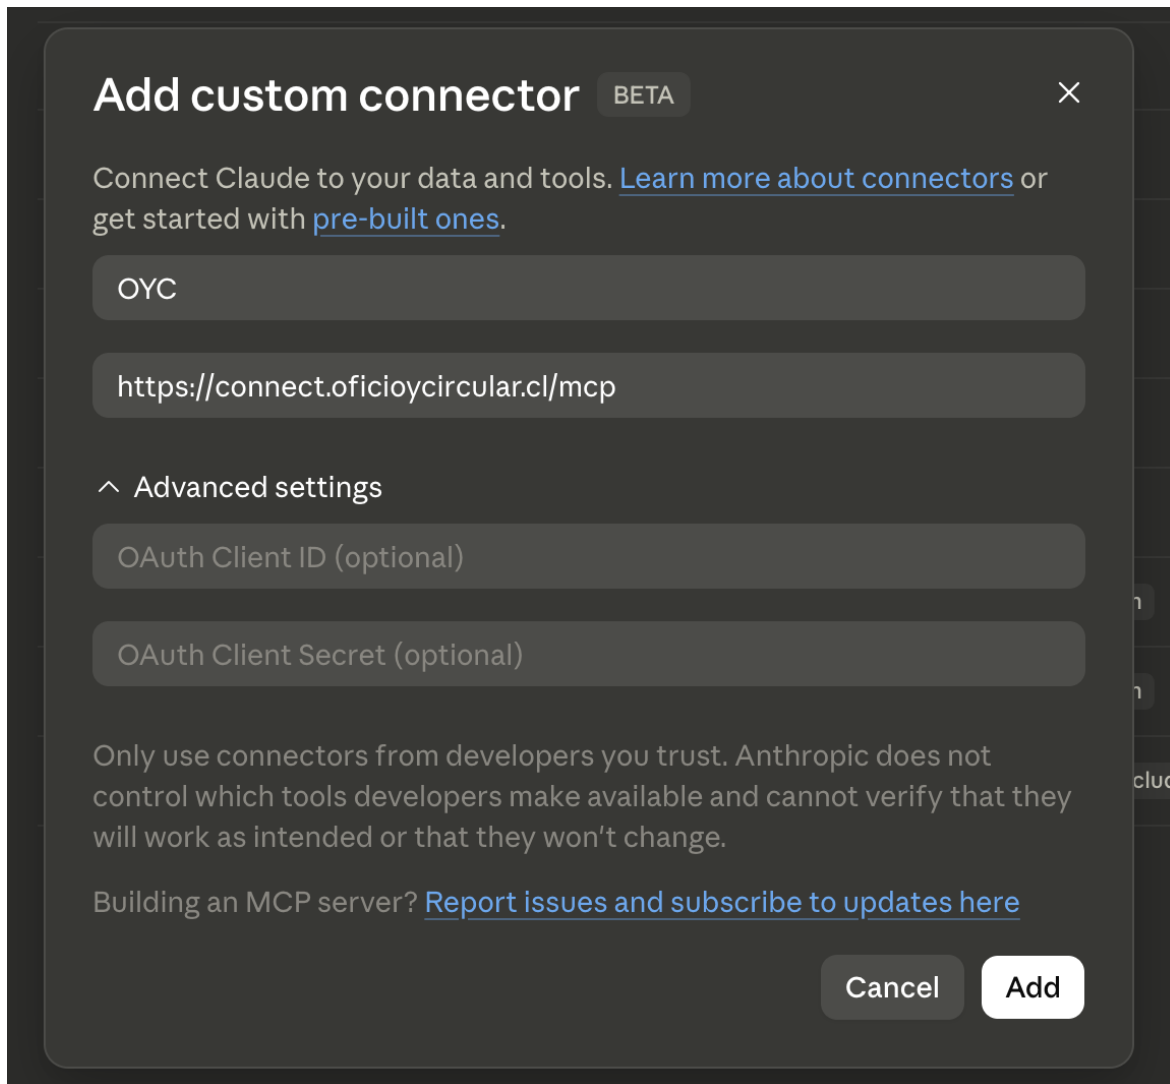

Paso 2. En el menú de configuración, selecciona “Conectores”. En la esquina superior derecha debería decir “agregar”.

Paso 3. Una vez abierto el menú de conectores, selecciona agregar en la esquina superior derecha; luego agregar conector personalizado.

Paso 4. Una vez abierto el menú para agregar un conector personalizado, ingresa un nombre (ejemplo: OYC) y el link del conector: <https://connect.oficioycircular.cl/mcp>. Luego, iniciarás sesión y quedará listo para usar.

The image shows a dark-themed dialog box titled "Add custom connector" with a "BETA" label and a close button (X). The text inside says: "Connect Claude to your data and tools. [Learn more about connectors](#) or get started with [pre-built ones](#)." Below this are two input fields: the first contains "OYC" and the second contains "https://connect.oficioycircular.cl/mcp". There is an expandable section "Advanced settings" with a caret icon, containing two more input fields: "OAuth Client ID (optional)" and "OAuth Client Secret (optional)". At the bottom, there is a disclaimer: "Only use connectors from developers you trust. Anthropic does not control which tools developers make available and cannot verify that they will work as intended or that they won't change." followed by a link: "Building an MCP server? [Report issues and subscribe to updates here](#)". At the very bottom are two buttons: "Cancel" and "Add".

Add custom connector BETA X

Connect Claude to your data and tools. [Learn more about connectors](#) or get started with [pre-built ones](#).

OYC

<https://connect.oficioycircular.cl/mcp>

^ Advanced settings

OAuth Client ID (optional)

OAuth Client Secret (optional)

Only use connectors from developers you trust. Anthropic does not control which tools developers make available and cannot verify that they will work as intended or that they won't change.
